Excerpt: . The Brain and the Nerves />TpHE brain and the nerves constitute the means through -\*. which man the creature comes closely in touch with God the Creator. The brain and the nerves together constitute the seat of the mind, the consciousness, the will, the thinking, feeling, governing organs. The brain and nerves are commonly described separately as independent organs, but in reality they are one. The thinking and feeling organ, as the whole together might be called, centers in the cranial cavity, but occupies the whole body. The smallest brain conceivable is a minute mass of transparent material, of irregular shape, and so small that several hundred ranged in line would make a row only an inch long. The scientific name of such a structure is a nerve cell, or neuron. A neuron consists of a body with elongations or branching parts. One...
