John Wiley and Sons Ltd. Hardback. Book Condition: new. BRAND NEW, The Information Masters: Building Value Through Customer Intelligence, John McKean, .Less than five percent of the worlda s firms achieve the full potential of their customer relationship initiatives.The rest are caught in its paradox.The core message of Information Masters is simply that the frenzied race back to customers is being won by those who have developed a broad and deep customer information competency. The winners have accomplished this by balancing technology with investments in the predominantly "non--technological" determinants of customer information competency -- people skills, processes, organization structure, culture, leadership, and information itself. "You might think ita s lack of technology that accounts for your inability to forge stronger, more rational and cohesive relationships with your customers, but John McKeana s excellent study shows that technology is likely to be the least of your worries. McKean has nailed it when he forces you to consider and evaluate the other a stuffa -- people, processes, and culture, and, by the way, the data itself is awfully important." --John Peterson, AT&T Vice President, Database Marketing "Gaining competitive advantage from information is not as much a technological challenge as it is about people, culture, and leadership. John illustrates and quantifies a better way to build an information advantage to serve both customers and shareholders." --David Overton, Vice President, Merchandise Planning,...
