Excerpt: . . . 8 AVIATION URBAN OPERATIONS can take full advantage of superior firepower and maneuver, our enemies are not playing along. As a matter of fact, in both Enduring Freedom and Iraqi Freedom, adversaries attempted to draw American and coalition forces into urban terrain to deny maneuver elements freedom of action. According to Maj Jon Davis, given the US doctrinal aversion to urban combat, a competent defender will do everything in his power to draw the fight into the city. Characteristics of Urban Terrain Three interrelated and complex characteristics distinguish the urban battlespace: man-made construction, high population density, and restrictive rules of engagement ( ROE ) ( table 2 ). Understanding the characteristics of urban terrain and their interrelationship requires a radical change in how military planners and aircrews view terrain. It also demands critical thinking about the multidimensional aspects of that terrain ( i. e. , size, pattern, and density ). Table 2. Comparison of operations in urban terrain and in other types of environments
